Risk Assessment

To provide a review of the statutory requirements for risk assessment under the Management of Health & Safety at Work Regulations 1999 and an understanding of the management framework necessary for the practical assessment of risk.

The course provides guidance on the methods available for risk assessment, reinforced by practical exercises based on a theoretical situation.

Who should attend? Those managers, supervisors and safety specialists responsible for safety in the workplace. This also includes anybody whose task it is to carry out / review risk assessments.

Prior knowledge An awareness of Health & Safety issues would be an advantage but not essential.

Course content

- H&S Law & Regulations.
- Hazard identification
- Assessment of risk.
- Development & selection control measures.
- Keeping records.
- Maintenance of the system.
- Method Statements.

Duration of course 1 Day

Course Materials: Comprehensive course manuals issued to each delegate

Intended outcomes Delegates who successfully complete the course will receive a certificate of training.
